Medical. Roca's Remedy for Pulmonary and Tubercular Consumption HAVING been appointed sole Agent for the sale of Don GERONINO ROCA'S celebrated CURN FOR CONSEMPTION, the public will now be put in pessession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable

disease. I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an out-more application, the action of which is seemingly intraculous, and its having none of those attributes which make up the numerous compounds now in general With the utmost considence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public.

A pamphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, &c., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address,
